**Other Ingredients:** stevia, natural flavor, citric acid
INFLAMMx: Ecologically harvested herbal compounding formula containing Boswellia Serrate, Yuca Root, Devils Claw Root, Hops Flowers, Fenugreek Seed, Hyssop Herb, and Ginger Root that all have anti-inflammatory properties. Our herbs in this concentrated formula come directly from their region of origin. We process these herbs (6 lbs. of dried herbs per gallon) with a proprietary alcohol extraction method that releases all the nutrients, volatile oils & esters ensuring you a pure balanced product with maximum effectiveness. This formula supports systemic healing processes.

Ingredients: Boswellia serrate extract, yucca root, devils claw root, hops flower, fenugreek seed, hyssop herb, ginger root, stevia leaf extract

Other Ingredients: purified water, 18-20% pure grain alcohol USP, natural flavor

Directions: Shake well. Take 2 droppers (2mL) two times per day. Directly in mouth or mix in small amount of water or juice. Use only as directed.

Supplement facts: Serving Size: 2ml (2 droppers) Serving Per Container: 60

Caution: Keep out of reach of children.

Storage: Keep tightly closed in a cool, dry place.

**NEURO SOOTHE:** Synergistically combines nitric oxide boosting ingredients in a cream format, versus pills, capsules or powder, so that the amino acids can bypass the digestive system so your body can utilize them more quickly with less degradation. Neurosoothe cream is very smooth and absorbs easily with no sticky residue like most creams. It is also paraben and fragrance free. Blueprints Neuro-Soothe helps your body convert L-arginine into nitric oxide which helps relax blood vessels. This improves overall blood flow, circulation and healthy nerve response. Increased blood flow to the muscles can enhance physical performance, stamina, strength and pain reduction. This cream comes without or with menthol which adds a cooling effect for pain distraction.

**Ingredients:** purified water menthol crystals, L-Arginine, carthamus tinctorius (safflower) seed oil, sepi-gel 305 (polyacrylamide, C13-14 isoparaffin, laureth-7), aloe barb adensis (aloe vera gel extract), germall plus (propylene glycol, diazolidinylurea, iodopropynyl butylcarbarnate), potassium sorbate, tocopherol (vitamin E), oil, sorbic acid.

**Directions:** to improve circulation, apply about 1 teaspoon topically to the area needed; hands, legs and/or feet.

**Supplement facts:** Serving Size: 1/3 - 1 teaspoon
Servings Per Container: approx. 90

**Caution:** Keep out of reach of children.

**Storage:** Keep tightly closed in a cool, dry place.

**VasoPro** is an easy mixing and energizing nitric oxide boosting powder loaded with whole food mushroom powder as the Vitamin D source so the body’s immune system can be further supported. The formula is enhanced with Vitamin B2, B6 and B12. This will synergistically help break down proteins, fats, and carbohydrates in the body. The Vitamin B formulation will play a vital role in maintaining the body's energy supply. This will help the body make the hormones serotonin (which regulates mood) and norepinephrine (which helps your body cope with stress). They also help keep the body's nerve and blood cells healthy and help make DNA. The R-Alpha-lipoic acid will help prevent certain kinds of cell damage in the body and also restores vitamin levels. There is also evidence that alpha-lipoic acid can improve the function and conduction of neurons in diabetic and neuropathy patients.* Magnesium glycinate is a vital nutrient for regulating many body processes, including muscle and nerve function, blood sugar levels, and blood pressure. We added beet root powder to boost stamina, improve blood flow, and help lower blood pressure. Beet root powder, through a chain reaction, helps your body change nitrates into nitric oxide, which helps with blood flow. Folate is a B-vitamin that is naturally present in many foods. Our bodies need folate to make DNA and other genetic material. Folate is also needed for the body’s cells to divide. And last but not least, the performance blend is the staple in our product. L-Citrulline is an amino acid that plays an important role in nitric oxide metabolism and regulation. L-Citrulline is converted to L-Arginine in the body, leading to sustained increases in both L-Arginine and nitric oxide. The Glutathione in the blend is known to work in the body to eliminate toxic chemicals, maintain cell proteins, and act as an antioxidant. Glutathione leads to longer lasting levels of NO by preventing its oxidative reaction when ingested in combination with L-citrulline. Combining Glutathione with L-citrulline not only increased blood levels of nitrite and NOx, but sustained the increases for a longer period of time. VasoPro Plus can help:

- Supports and restores NO levels*
- Supports healthy circulation*
- Supports energy and endurance*
- Supports drive and performance*
- Supports healthy blood pressure*

**Ingredients:** Vitamins B2, B6, & B12, R-Alpha Lipoic Acid, Magnesium Glycinate, beet root powder, pine bark extract, horse chestnut, folate, L-Citrulline, L-Glutathione

**Other Ingredients:** natural grape flavoring, stevia leaf extract, monk fruit extract

**Directions:** Mix 1 scoop with 8 oz. of chilled water or juice 1-2 times daily or as directed by a health care professional.

**Supplement facts:** Serving Size: 5.9 grams (approx. 1 scoop)
Serving Per Container: 60 or 180

**Caution:** Keep out of reach of children.

**Storage:** Keep tightly closed in a cool, dry place.
